

ASTRUM *blue*

AN ENVIRONMENTALLY-FRIENDLY SOLUTION FOR YOUR SOLID TIRE NEEDS

Astrum Blue solid tires provide the reliability of a new forklift tire with the cost savings of a green product. Recycled solid tire cores are remolded with abrasion resistant tread rubber and robust sidewalls to create a new super elastic solid tire! It is a viable solution for both your economic and environmental needs.

Astrum Blue solid tires offer all the benefits of a solid industrial tire in superelastic construction. Excellent for tough applications with a high risk of impact and cut damage.

ASTRUM *blue*

KEY FEATURES

Astrum Blue industrial tires offer all the benefits of a solid tire in super elastic (3-stage) construction. With the lowered cost from a recycled core, they provide a green alternative for forklift applications.

- ✦ Solid industrial tires made from recycled core, with remolded base, sidewall, and tread
- ✦ Available in 17 sizes
- ✦ Traction pattern for the North American market
- ✦ Offered in standard (black) compound in super elastic construction
- ✦ Low maintenance with robust sidewall construction
- ✦ Environmentally friendly tire solution
